ARTICLE 1 - DEFINITIONS. As used throughout this Agreement:

- (a) "Affiliate" means any entity controlling, controlled by, or under common control of a party to this Agreement.
- (b) "Agreement" means these terms and conditions ("Supply Agreement"), purchase orders or purchase agreements issued to Seller referencing this Supply Agreement, and any pricing agreements, specifications, statements of work, or other papers referenced in such purchase orders or purchase agreements.
- (c) "Direct Procurement" means the purchase of any Good or Service that is incorporated into or performed on an aircraft or part thereof, or is otherwise provided to Purchaser's customer.
- (d) "Goods" means all products contracted for and supplied by Seller under this Agreement, including all components, raw materials, and intermediate assemblies thereof.
- (e) "Indirect Procurement" means the purchase of any Good or Service that is *not* incorporated into or performed on an aircraft or part thereof, and is not otherwise provided to Purchaser's customer.
- (f) "Prime Contract" means a contract defined by a government contract number printed on purchase orders or purchase agreements issued pursuant to this Agreement.
- (g) "Purchaser" means the party contracting with Seller for Goods and/or Services and identified as the purchasing entity on the face of purchase orders issued pursuant to this Agreement.
- (h) "Seller" means the party contracting with Purchaser to perform the work hereunder.

- (i) "Services" means those services contracted for and supplied by Seller under this Agreement and as may further be described in purchase orders, purchase agreements, statements of work, specifications, or other papers included in this Agreement.

ARTICLE 2 - TERMS AND CONDITIONS. Either Seller's written acknowledgement or Seller's full or partial performance, whichever occurs first, will constitute acceptance of the Purchase Orders or Purchase Agreements. Any acceptance of this Supply Agreement by Seller is limited to acceptance of the express terms of the offer set forth in this Supply Agreement. Any proposal for additional or different terms and conditions (whether included in Seller's quote, acknowledgement, or any other document) is rejected unless accepted in writing by the Purchaser.

ARTICLE 3 - PAYMENT TERMS.

- (a) Standard Terms. The ordinary net date ("Net Date") for a Direct Procurement shall be ninety (90) days after the Payment Start Date and for an Indirect Procurement shall be one hundred and twenty (120) days after the Payment Start Date. The Payment Start Date shall be the later of (a) the date performance is requested by Purchaser (e.g., in a part schedules report (Goods) or statement of work (Services)), (b) the material received date as identified in Purchaser's computer system, or (c) the invoice approval date (which shall not be earlier than the date of complete performance). Settlement and invoicing must be paperless and in a format acceptable to Purchaser. Options acceptable to Purchaser include Web Invoicing, Evaluated Receipt Settlement and Electronic Data Interchange. Seller must provide banking information to establish electronic funds transfer for U.S. suppliers and wire transfer for non-U.S. suppliers.
- (b) Batched Payments. Purchaser may choose to group all approved invoices that are not paid on their applicable early payment discount dates and all approved invoices that have not been discounted and that have Net Dates ranging from the sixteenth (16th) day of one month to the fifteenth (15th) day of the next month, and will pay all such approved invoices on the 3rd day of the second month (the "Batch Payment Date"), with the result that some approved invoices will be paid earlier than their Net Dates and some approved invoices will be paid later than their Net Dates. If the Batch Payment Date falls on a weekend or holiday, the approved invoice will be paid on the next day that Purchaser and the banks used by Purchaser are open for business.
- (c) Accelerated Payment Program. If Seller is enrolled in the Accelerated Payment Program, Purchaser may choose to pay approved invoices as follows: (a) for Direct Procurements, Seller agrees to accept the invoice amount discounted by two and one-half percent (2.5%) in exchange for Purchaser's payment on the fifteenth (15th) day following the Payment Start Date (2.5% 15 net 90); and (b) for Indirect Procurements, Seller agrees to accept the invoice amount discounted by three and one-half percent (3.5%) in exchange for Purchaser's payment on the fifteenth (15th) day following the Payment Start Date (3.5% 15 net 120). Accelerated payments will be made daily and are not subject to the Batched Payment process in Article 1(b). If payment is not initiated by the last available early payment discount date, payment may be made as described in Article 1(b). If the early payment discount date falls on a weekend or a holiday, Purchaser will initiate payment to Seller on the next business day. If payment is initiated before or after such fifteenth (15th) day, the invoice will be discounted on a pro rata basis to reflect each day that payment is accelerated.

If Purchaser takes an early payment discount to settle and invoice, Seller acknowledges and confirms that (1) Purchaser has assigned its right, title and interest in the related Goods and/or Services to General Electric Capital Corporation ("GECC") and title to the Goods and/or Services shall pass directly to GECC in accordance with the terms of this Agreement (2) once title to the such Goods and/or Services has passed to GECC, GECC will immediately and directly transfer such title to Purchaser and (3) all of the Seller's obligations under this Agreement, including Seller's representations and warranties, shall extend to and benefit Purchaser as if title passed directly to Purchaser.

- (d) Taxes. All sums payable under this Agreement shall be exclusive of VAT or other sales tax, which shall (if applicable) be payable by the Purchaser.
- (e) Set-off. Purchaser shall be entitled to set off any amount owing from Seller to Purchaser or to any of Purchaser's Affiliated companies against any amount payable under this Agreement.

ARTICLE 4 - TRANSPORTATION AND DELIVERY.

- (a) Unless otherwise stipulated on the face of the order, the applicable shipping and delivery Incoterms will be FCA (named place) Incoterms 2010. In any event, title to Goods shall pass to Purchaser upon delivery. Purchaser insures all Goods for which it accepts risk of loss while such Goods are in transit. Therefore, Seller shall not declare any insurance value on such Goods shipped via any carrier.

- (b) Seller shall release rail or truck shipments at the lowest released valuation permitted in the governing tariff or classification. Purchaser will pay no charges for unauthorized transportation. Any unauthorized shipment, which results in excess transportation charges, must be fully prepaid by the Seller. If Seller does not comply with the stated delivery schedule, Purchaser may require delivery by the fastest way. The charges resulting from this mode of transportation must be fully prepaid and the Seller must absorb the full cost of the shipment.
- (c) Seller's non-U.S. locations involved with the manufacture, warehousing, shipment, or delivery to U.S. agree to review and to use commercial reasonable effort to comply with "GE Customs-Trade Partnership Against Terrorism (C-TPAT) Supply Chain Security Guidelines for International Suppliers/Shippers" (located at http://www.geaviation.com/aboutgeae/doingbusinesswith/docs_supplier_security/C-TPAT_guidelines_intl_suppliers_shippers.pdf) and maintain a written plan for appropriate security procedures ("Security Plan"). Upon request, Seller shall certify to Purchaser in writing: (i) that it maintains a written Security Plan consistent with appropriate C-TPAT, AEO, or similar program criteria; (ii) the current contact information of a supply chain security company point of contact; (iii) the certification number if Seller is certified by a supply chain security program (e.g., C-TPAT Status Verification Interface or SVI); (iv) any changes to its certification status; and (v) the completion of a supply chain security questionnaire (if not certified by a supply chain security program).
- (d) Seller agrees to contact Purchaser upon knowledge of any known or suspected security breach affecting the Goods (contraband, smuggling, threatening or suspicious activities detected, tampered container, trailer, lock or seal including a seal broken during a customs inspection).
- (e) Upon Purchaser's request, all shipment containers for Goods shall be labeled in accordance with Purchaser's Bar Code Shipping Label Instructions. Seller shall submit example labels for approval within sixty (60) days of said request. Seller shall designate an individual responsible for compliance with said instructions and shall act as the Seller's contact for issues concerning bar code labels. If Seller uses Purchaser's supplier collaboration portal, Seller shall not print bar code shipping labels more than twenty-four hours prior to transit of Goods to Purchaser.

ARTICLE 5 - TERMINATION.

- (a) Delay and Default. In the event Seller for any reason anticipates any difficulty in complying with the required delivery date or any of the other requirements of this Agreement, Seller shall promptly notify Purchaser in writing, and upon request, provide Purchaser adequate assurance of performance. In the event of a delivery delay, non-delivery or any other default by Seller in meeting its obligations under this Agreement, Purchaser may terminate all or any part of this Agreement without further compensation to Seller, and Purchaser's rights will be (i) for Goods, as specified in the New York Uniform Commercial Code (or if Seller is located outside the U.S., Article 45 of the United Nations Convention on Contracts for the International Sale of Goods); (ii) for Services, Purchaser may procure, upon such terms and from any source or service provider as it shall deem appropriate, supplies or services similar to those terminated, in which case Seller shall continue performance of such order to the extent not terminated and shall be liable to Purchaser for any excess costs for Purchaser's procurement of such similar supplies or services. If Purchaser has made any progress payments under this Agreement, Seller shall refund to Purchaser any such payments immediately upon termination.
- (b) Termination for Convenience. Purchaser may terminate all or any part of this Agreement for convenience at any time after notice specifying the extent of termination and the effective date. After receipt of notice of termination, unless otherwise directed by Purchaser, Seller shall immediately: (1) stop work as directed in the notice; (2) place no further subcontracts or orders for materials, services, or facilities, except as necessary to complete the continued portion of the Agreement; and (3) terminate all subcontracts to the extent they relate to work terminated. After termination, Seller shall submit a final termination settlement to Purchaser in the form prescribed by Purchaser. In the event that Purchaser wrongfully terminates this Agreement under paragraph (a), in whole or in part, such termination becomes a termination for convenience under this paragraph (b).

In no event shall Purchaser be liable for lost or anticipated profits, or unabsorbed indirect costs or overhead, or for any sum in excess of the total Agreement price. Seller's termination claim shall be submitted within ninety (90) days from the effective date of the termination.

ARTICLE 6 - DISPUTE RESOLUTION.

- (a) Arbitration. If any dispute arises relating to this Agreement, the parties will endeavor to resolve the dispute amicably, including by designating senior managers who will meet and use commercially reasonable efforts to resolve any such dispute. If the parties' senior managers do not resolve the dispute within sixty (60) days of first written request, either party may request that the dispute be settled and finally determined by binding arbitration. If the Purchaser is located in the United States, arbitration will be conducted in accordance with

the Commercial Arbitration Rules of the American Arbitration Association. If Purchaser is located in European Union, the arbitration will be conducted in accordance with the rules of the London Court of Arbitration. In either case, arbitration will be at a mutually agreed location, by one or more arbitrators appointed in accordance with the applicable rules. The arbitrator(s) will have no authority to award punitive damages, attorney's fees and related costs or any other damages not measured by the prevailing party's actual damages, and may not, in any event, make any ruling, finding or award that does not conform to the terms and conditions of the Agreement and applicable law. The award of the arbitrator(s) will be final, binding and non-appealable, and judgment may be entered thereon in any court of competent jurisdiction. All statements made or materials produced in connection with this dispute resolution process and arbitration are confidential and will not be disclosed to any third party except as required by law or subpoena. Except as specified in paragraph (c) below, the parties intend that the dispute resolution process set forth in this Article will be their exclusive remedy for any dispute arising under or relating to this Agreement or its subject matter. Any claim against Purchaser shall be barred unless Seller has requested that it be resolved by arbitration in accordance with this Article within one year of the dispute, which shall be the effective date of termination if the dispute is related to termination.

- (b) If Seller is located outside of the United States or European Union, the terms set forth in paragraph (a) above apply, except disputes shall be finally settled under the rules of the International Chamber of Commerce, in a mutually agreed location.
- (c) Exception. Either party may at any time, without inconsistency with paragraph (a) above, seek from a court of competent jurisdiction any equitable, interim, or provisional relief to avoid irreparable harm or injury. Paragraph (a) above will not apply to and will not bar litigation regarding claims related to a party's proprietary or intellectual property rights, nor will paragraph (a) above be construed to modify or displace the ability of the parties to effectuate any termination contemplated by this Agreement.

ARTICLE 7 - PURCHASER'S PROPERTY.

- (a) All Purchaser's Property, including Purchaser's proprietary information, tooling, tooling drawings, equipment, materials and bailed materials, software, drawings, specifications, data documents or information or materials that disclose processes, procedures, know-how, trade secrets, furnished to Seller by Purchaser or on behalf of Purchaser, or paid for in whole or in part by Purchaser ("Purchaser's Property") shall be and remain the personal property of Purchaser, and, unless otherwise agreed to in writing by Purchaser shall be used by Seller solely to render Services or provide Goods to Purchaser. Such Purchaser Property where practical shall be plainly marked or otherwise adequately identified by Seller as being the property of Purchaser and shall be safely stored apart from Seller's property. Purchaser's Property while in Seller's custody or control shall be held at Seller's risk and shall be insured by Seller for replacement cost with loss payable to Purchaser. Such property shall be maintained by Seller, is subject to removal at Purchaser's written request, and Seller shall deliver it to Purchaser in the same condition as originally received by Seller, except for reasonable wear and tear. Nothing in this Article 7 or elsewhere in this Agreement shall be interpreted as being an implied license or a license by estoppel in any Purchaser IP (as defined in Article 8, below).
- (b) Seller is hereby authorized to use Purchaser's Property for the sole purpose of performing its obligations under this Agreement. Purchaser's Property shall not be used, disclosed to others or reproduced for any other purpose, including, but not limited to, (1) the design, manufacture, or repair of parts, or to obtain FAA or any other governmental approval to do so; or (2) to provide any part by sale or otherwise, to any person or entity other than Purchaser. Seller may provide Purchaser's Property to Seller's sub-contractors for the sole purpose of assisting Seller in performing its obligations under this Agreement on condition that Seller's sub-contractors agree in writing to all the terms and provisions of this Agreement relating to Purchaser's Property, for the Purchaser's benefit.
- (c) In the event Seller, without Purchaser's prior written consent and authorization, designs or manufactures for sale to any person or entity other than Purchaser or Purchaser's Affiliate any hardware that is substantially similar to or can replace or repair any part for a GE or CFM International engine or any other engine program in which GE participates, or can repair or replace any other GE-designed aircraft product or system ("GE Products") or obtains FAA or other governmental approval for such hardware or repair, the Seller, in any adjudication involving or relating to Purchaser's Property, shall be required to establish by clear and convincing evidence that neither Seller nor any of its employees, sub-contractors or agents used in whole or in part, directly or indirectly any of Purchaser's Property in such design or manufacture or in obtaining FAA or other governmental approval with respect to such GE Products or repair of GE Products.
- (d) Seller shall comply with the Purchaser's Privacy and Data Protection Policy

ARTICLE 8 - INTELLECTUAL PROPERTY RIGHTS, WARRANTIES AND CONFIDENTIALITY.

- (a) Ownership of IP. Nothing in this Agreement shall entitle Purchaser to ownership rights in any data, information, specifications, designs, drawings, programs, derivative works, computer software including source code or object code, ideas, techniques, methods, processes, know-how, documentation and materials, inventions, or discoveries whether patented or unpatented (collectively, "IP"), developed by Seller prior to or outside the scope of this Agreement (and without any reference to Purchaser's Property), ("Seller's Background IP"), Purchaser shall be entitled to full ownership of all IP (along with any intellectual property rights thereto, including any trade secrets, patents, patent applications, copyrights, maskworks, database rights, industrial property rights, and other similar rights, regardless of the jurisdiction, and any applications), conceived or first actually reduced to practice in the performance of this Agreement or any subcontracts of Seller related to this Agreement ("Developed IP"), and such Developed IP shall be treated, at the time of conception, as Purchaser's Property ("Purchaser's Rights"). For the avoidance of doubt, Developed IP includes any and all IP developed or conceived in contemplation of a Purchase Order being issued by Purchaser for Goods or Services, regardless of the actual date of conception or reduction to practice. When a Purchase Order includes a specific line item for Services or a Purchase Order line item includes requirements for an adaption or improvement to a commercially available Good, such line item or requirement shall presumably be considered to be Developed IP, and Seller shall bear the burden of establishing that any IP delivered in satisfaction of said PO line item does not constitute Developed IP. Further, any IP developed during the period of performance of this Agreement in satisfaction of the requirements of this Agreement shall presumably be considered Developed IP unless Seller can establish by documented evidence that such IP was wholly developed outside of this Agreement, including being exclusively funded by Seller and being conceived and reduced to practice without any reference to Purchaser Property. All Purchasers' IP shall be deemed Purchaser's Property and shall not be used by others or disclosed to others without Purchaser prior written permission
- (b) Developed IP. All Developed IP that is considered "Work Made for Hire" as defined in in Section 101 of the United States Copyright Act, 17 U.S.C. § 101, and used in 17 U.S.C. § 201 (or relevant EU legislation and the UK Copyright, Design and Patents Act 1988, c. 48, as amended), shall be deemed a "work made for hire" under this Agreement, with all right, title and interest in such Developed IP vesting with Purchaser. For all other IP not deemed a work made for hire, Seller hereby assigns all such Developed IP to Purchaser (or to any Purchaser Affiliate as designated by Purchaser) at no additional cost to Purchaser. In addition, Seller, will provide reasonable, timely assistance to Purchaser (at Purchaser's expense) to enable Purchaser to secure Purchaser's Rights in Developed IP. Seller will procure from its employees and subcontractors, at Seller's sole expense (including any compensation due Seller's employees), all Purchaser's Rights in any Developed IP, and will secure from Seller's employees the execution of all patent applications, assignments, and other instruments necessary for the procurement of patents and other intellectual property rights and the vesting of title thereto in Developed IP.
- (c) Ownership of Data. Purchaser shall become the sole owner of any and all notes, reports, memoranda, or other data, made or prepared in connection with any order placed by Purchaser. As required under the terms of a Purchase Order, or at Purchaser's request, Seller shall deliver all such data to Purchaser.
- (d) If the Goods or Services under this Agreement are being delivered pursuant to a government subcontract (as defined in Appendix A, below) that includes retention of intellectual property rights of the Seller, Seller shall retain ownership of such intellectual property rights and Seller hereby grants to Purchaser an irrevocable, fully paid up, perpetual license for all such intellectual property rights, and the right to extend such license right to Purchaser's customers, licensees, co-producers, partners, Affiliates, and subsidiaries.
- (e) Use of Seller's Background IP. Seller grants to Purchaser (and Purchaser's customers, suppliers, partners, Affiliates, regulators, auditors, and inspectors) a perpetual, irrevocable, fully paid up, global license to use and disclose Seller's Background IP and Seller's proprietary information in the performance of this Agreement, including but not limited to the use, sale, test, qualification, adaptation, modification, servicing, or repair of Goods including where such Goods are incorporated into a higher tier assembly. Purchaser may share Seller's information with its Affiliates, subsidiaries, contractors, or customers in furtherance of this license granted herein. The license granted in this Article 8 shall supersede any restrictions stated in any Proprietary Information Agreement and shall take precedence over any restrictive or proprietary markings contained on the face of any Goods documentation and/or data deliverables pursuant to a Purchase Order.
- (f) Confidentiality. All Purchasers' Property, and Purchaser's Rights shall be deemed Purchaser's proprietary information, whether or not marked with any restrictive legend. Seller shall not disclose Purchaser's proprietary information to any third party without the Purchaser's consent, and Seller shall protect Purchaser's

proprietary information against unauthorized use or disclosure using at least those measures that it takes to protect its own proprietary information of a similar nature, but no less than a high degree of reasonable care, which shall include all the requirements stated within this Agreement. Seller will disclose Purchaser's proprietary information only to such of Seller Personnel who have a bona fide need to know for the purpose of performing its individual obligations under this Agreement. Seller will ensure, by instruction, contract or otherwise that such Seller Personnel comply with the provisions of Articles 7 and 8, and Seller shall be responsible in the event of any breach of this Agreement by Seller Personnel. Seller will, if necessary and/or required, establish operational controls to ensure that any of its other personnel working on other matters do not have access to Purchaser's proprietary information.

- (g) Patent Markings. If Purchaser notifies Seller that Goods ordered under this Agreement are patented, Seller agrees to mark such Goods with any patent numbers or other markings designated by Purchaser, including updates to such numbers or markings
- (h) Intellectual Property Representations and Warranties. Seller represents and warrants:
- i) It is not the proprietor of any intellectual property rights (including copyright, trade secret, patent, application for patent, invention or license right) which would impair or restrict the freedom of Purchaser, or Purchaser's subsidiaries and Affiliates, and their respective vendors and customers, to make use of the Goods or Services;
 - ii) Seller will not assert any intellectual property rights against Purchaser, Purchaser's subsidiaries and Affiliates, and their respective vendors and customers, on account of any use made of the Goods or Services (or derivatives or improvements thereof) by any of them;
 - iii) Goods and Services shall not infringe any third party intellectual property rights, including any patent, trademark, copyright, or proprietary right, and shall not misappropriate any trade secrets of any third party;
 - iv) Goods and Services shall not contain any viruses, malicious codes, trojan horse, time bomb, self-help code, back door, or other software code designed to: (w) damage, destroy, or alter any software or hardware, (x) reveal, damage, destroy, or alter any data, (y) disable any computer automatically, or (z) permit any unauthorized access to any software or hardware;
 - v) Seller will provide any computer software and firmware free of any license terms, such as reciprocal open source license terms, that would obligate the Purchaser to divulge source code to the public, or if not disclosed to the public (x) offer free of charge, or (y) cause a distributor or publisher of the software to deprive themselves the benefit of any patent protection associated with any software;
 - vi) Any compensation which may be claimed by or due to any Seller employee or any Seller's sub-contractor's employee in connection with any information, invention or patent or other intellectual property or intellectual property right, shall be paid solely by Seller;
 - vii) Seller will obtain the same warranties and commitment contained in this article running in favor of Purchaser, Purchaser's subsidiaries and Affiliates and their respective vendors and customers from each of Seller's subcontractors;
 - viii) Seller will require its employees to execute contracts of employment or other agreements assuring the Seller the ability to comply fully with this article;
 - ix) If an injunction should issue resulting from a breach of these representations and warranties, Seller shall procure for Purchaser, and Purchaser's subsidiaries and Affiliates, and their respective vendors and customers, the rights to continue using the Goods and/or Services supplied by the Seller.

ARTICLE 9 - CHANGES.

- (a) Purchaser reserves the right at any time to make changes within the general scope of this Agreement. Such changes may include: (1) drawings, designs or specifications; (2) technical clarifications; (3) artwork; (4) quantity; (5) method of shipment or packing; (6) quality; (7) place or time of delivery; or (8) amount of Purchaser's furnished property.
- (b) If any change causes a significant impact on the cost of, or the time required for, performance of any work under this Agreement, an equitable adjustment shall be made in the price or delivery schedule, or both as applicable, in writing. Any Seller claim for adjustment under this article shall be deemed waived unless asserted in writing within twenty (20) days after receipt by Seller of the notice to make the change and may only include reasonable, direct costs that will necessarily be incurred as a direct result of the change.

- (c) Seller shall not proceed to implement any change until Purchaser provides for such change in writing.
- (d) Nothing in this section, including any disagreement with Purchaser as to the equitable adjustment to be made, shall excuse Seller from proceeding with the Agreement as changed.

ARTICLE 10 - ANTICIPATION OF DELIVERY SCHEDULE. It is Seller's responsibility to comply with its scheduled lead times, but not to anticipate Purchaser's requirements. Any material commitments or production arrangements made by Seller in excess of the amount or in advance of the time necessary to meet schedules that are within lead time shall be at Seller's sole risk and expense. Goods shipped to Purchaser in advance of Purchaser's requirements may be returned to Seller at Seller's expense.

ARTICLE 11 - ASSIGNMENT AND CHANGE IN OWNERSHIP.

- (a) Assignment. Any assignment or attempt to assign or subcontract Seller's obligations under this Agreement without the advance written consent of Purchaser shall be null and void and shall give Purchaser the right to terminate this Agreement for default.
- (b) Change in Ownership. If a third party submits a solicited or unsolicited offer to Seller that would result in a Change of Ownership or Control of Seller, as defined below, Seller shall give notice of such offer, including the identity of the offeror, to Purchaser as early as commercially practical following Seller's receipt of the offer. Before Seller accepts the offer, it shall give Purchaser an opportunity, within a reasonable time, to advise Seller of its impact on performance of this Agreement. If the Change in Ownership or Control occurs, Purchaser has the right at its discretion to terminate this Agreement. In the event of such termination, Seller agrees to render full cooperation to Purchaser in order to minimize disruption to the Purchaser's program. Pending termination or in lieu of termination, Purchaser may require Seller to provide adequate assurance of performance, including, but not limited to the institution of special controls regarding the protection of Purchaser's Property, including all intellectual property and proprietary information.

For purposes of this sub-paragraph (b), the terms "Change in Ownership or Control" shall mean any of the following: (1) the sale of equity shares controlling 20% or more of the voting rights in Seller or Seller's parent, (2) the sale, lease, transfer or other disposition of substantially all of the assets of Seller or Seller's parent, (3) a merger, reorganization, consolidation, share exchange, recapitalization, business combination, liquidation or dissolution or similar transaction, (4) a tender offer or exchange offer for any of the outstanding shares of capital stock of Seller or Seller's parent, (5) a sale by Seller of the assets relating to the product Seller produces or will produce for Purchaser, or (6) any public disclosure of a proposal or plan or intention to do any of the foregoing.

ARTICLE 12 - QUALITY ASSURANCE, INSPECTION AND TEST.

- (a) Seller shall be responsible for the specific quality, performance, productivity provisions, and documentation requirements, if any, set forth in this Agreement. In addition, Seller shall be responsible for imposing the applicable quality assurance requirements on its subcontractors. Purchaser, or Purchaser's customer, shall have the right to conduct quality audits and to perform or witness inspections or tests of the Goods or Services furnished hereunder at Seller's facility (or elsewhere) at any time during manufacture and prior to shipment, at no charge to Purchaser, or Purchaser's customer. In accordance with 14 CFR 145.223 and 14 CFR 21.140, any Seller that accepts parts, which are regulated by the Federal Aviation Administration (FAA), or those regulated by EASA, DAOS or other regulator, must provide facility access to that regulator for surveillance of these parts.
- (b) The Seller agrees to use only experienced, trained and qualified employees in the performance of its obligations under this Agreement and all Services performed must be of first class quality and workmanship.
- (c) Notwithstanding Purchaser's right to audit in paragraph (a) above, all Goods and Services supplied under this Agreement shall be received subject to Purchaser's right of inspection, count, testing, acceptance and/or rejection per the technical specifications. Payment for Goods and/or Services delivered hereunder shall not constitute acceptance thereof, and all payments against documents shall be made with a reservation of rights by Purchaser for defects in Goods and/or Services, including, without limitation, defects apparent on the face thereof. The making of, or failure to make, any inspection or acceptance of the Goods or Services shall in no way impair Purchaser's right to reject nonconforming Goods or Services or to avail Purchaser of any other remedies to which it may be entitled.
- (d) Seller certifies that it shall provide and maintain quality control, inspection, and process control systems in accordance with Purchaser's then current specification for supplier quality product requirements, as applicable (S-1000, S-1001, S-1002, S-1005, S-1006, S-1007; S-485, or other quality requirements as specified). Seller will maintain Objective Evidence of its conformance with this paragraph. Objective

Evidence means any statement of fact pertaining to the quality of a product or service based on observations, measurements or tests that can be fully verified. Evidence must be expressed in terms of specific quality requirements or characteristics. These characteristics are identified in drawings, specifications, and other documents that describe the item, process, or procedure.

- (e) Seller agrees to provide a minimum advance notice of 180-days to Purchaser of any changes to significant processes, including, but not limited to physical relocation of any manufacturing or quality operations. Within fourteen (14) days of such notice, Seller will generate a Critical Process Control plan, which is subject to Purchaser's review and approval.
- (f) Counterfeit Goods. For purposes of this Article, Goods consist of those parts deliverable under this Agreement that are the lowest level of separately identifiable items (e.g., articles, components, goods and assemblies). "Counterfeit Goods" means Goods that have been misrepresented as having been designed and/or produced under an approved system or other acceptable method. Counterfeit Goods include, but are not limited to: (i) Goods that are an illegal or unauthorized copy or substitute of an Original Equipment Manufacturer (OEM) item; (ii) Goods that do not contain the proper internal or external materials or components or are not manufactured in accordance with the OEM design; (iii) Goods that are used, refurbished, or reclaimed but that Seller represents as being new; (iv) Goods that have not successfully passed all OEM required testing, verification, screening, and quality control but that Seller represents as having met those requirements; (v) Goods with a label or other marking intended, or reasonably likely, to mislead a reasonable person into believing a non-OEM Good is a genuine Good when it is not, and (vi) Goods that are an unauthorized copy or substitute that have been identified, marked, and/or altered by a source other than the item's legally authorized source and has been misrepresented to be an authorized item of the legally authorized source.
 - i) Seller warrants and certifies that Goods delivered pursuant to this Agreement, unless otherwise specifically stated on the face of the Purchase Order, shall (i) be new, (ii) be and only contain materials obtained from the OEM or an authorized OEM reseller or distributor, (iii) not be or contain any Counterfeit Goods, and (iv) contain only authentic, unaltered OEM labels and other markings. Seller shall provide to Purchaser the OEM's certificate of conformance for any Goods acquired from an authorized OEM reseller or distributor. Goods shall not be acquired from independent distributors or brokers unless specifically authorized in writing by Purchaser.
 - ii) Seller shall maintain a method of item traceability that ensures tracking of the supply chain back to the manufacturer of all Electrical, Electronic, and Electromechanical (EEE) parts included in assemblies and subassemblies being delivered per this Agreement. This traceability method shall clearly identify the name and location of all of the supply chain intermediaries from the manufacturer to the direct source of the product for Seller, and shall include the manufacturer's batch identification for the item(s) such as date codes, lot codes, serializations, or other batch identifications. When requested by Purchaser, Seller shall provide OEM documentation that authenticates traceability of the affected items to the applicable OEM.
 - iii) Seller shall immediately notify Purchaser and the GIDEP system if it knows or suspects that it has provided Counterfeit Goods.
 - iv) In the event Goods delivered under this Agreement constitute Counterfeit Goods, Seller shall at its expense promptly replace such Goods with genuine Goods conforming to the requirements of this Agreement.
