

VOLUME REBATES, REQUEST FOR QUOTE REQUIREMENTS

Suppliers are to quote their catalog or list price for each part/work scope combination. The Supplier will invoice GEES using the supplier's catalog or list price.

Suppliers are to quote a volume rebate based on a percent discount to their catalog or list price on a tiered volume basis that applies to all GEES purchases from that supplier during a contract year. (i.e. 5% discounts on quantities from 1 to 100, and 7% on quantities from 101 and greater).

The rebates will be provided on a contract year basis, and payable twice per contract year in 6-month increments.
